

# About Us

## OUR MEDICAL DIRECTOR

T&C Neuromax has a board certified pain physician with over 10 years of pump implantation and intrathecal medication experience. Our medical director is available 24/7 to assist both the patient and the managing physician with questions pertaining to pain management, spasticity management, intrathecal compounded mixtures, drug concentration, dosing and complication management.

## OUR CLINICIANS

T&C Neuromax's clinicians are comprised of highly trained Registered Nurses and Physician Assistants with years of experience in managing intrathecal pumps. Each clinician is trained under the supervision of our Medical Director to become the best in the industry when caring for the patient and their pump needs.

## OUR PHARMACY

All sterile medications are prepared to USP 797 standard for Sterile Products in a ISO2 Glove Box. This glove box is located in our ISO3 Isolated Clean Room with an advanced laminar flow hood. Only pharmacists who have received specialized training to the USP 797 sterile standard will compound sterile medications.

# Services

## INTRATHECAL DRUG REFILLS

Done in the comfort of the patient's home by a T&C Neuromax trained clinician.

## INTRATHECAL INFUSION DOSE CHANGES

T&C Neuromax clinicians are available when dose changes are needed.

## 24/7/365 EMERGENCY SUPPORT

If an emergency arises, our staff is available 24/7 to assist the patient and/or the managing physician resolve any pump related issues.

## POST-MRI PUMP INTERROGATIONS

After an MRI procedure, a T&C Neuromax clinician will verify that the pump returns to the normal settings.

## BRIDGE-BOLUS PROCEDURE

This program is used by our clinicians when a change in drug and/or concentration has been ordered by the managing physician.

## FLEX-INFUSION PROCEDURE

This program is designed to increase or decrease the amount of medication the patient receives at certain times of the day.

## MYPTM

Allows patients to participate in their pain management by allowing the patient to increase drug dosage in response to pain (with physician set parameters).

# Home Infusion

## SPECIALTY HOME INFUSION SERVICES FOR IMPLANTED INTRATHECAL PUMPS

T&C Neuromax specializes in the comprehensive management of intrathecal drug pumps in the comfort of the patient's home. Our highly trained staff will provide assistance to the managing physician, the patient and their families 24 hours a day by calling our patient hotline at 888-290-2244.
