

TOWN & COUNTRY
Compounding Pharmacy
We compound quality

Our accreditations place us in the top 1% of compounding pharmacies

Town & Country Compounding is an LDN pharmacy with an LDN Program for patients that helps lead to positive health outcomes

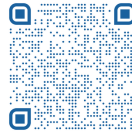

We do much more than just compound, fill and ship LDN prescriptions. We have a true program that helps with outcomes.

"Town & Country Compounding's LDN titration kits and their commitment to educating patients have helped my success rate in managing pain in patients with autoimmune diseases."

Dr. Asher Goldstein, MD
Chairman of Department of Pain and Palliative Care at Holy Name Medical Center in Hackensack, NJ

LDN PATIENT PROGRAM OVERVIEW

1 Quality

Where you get compounded medications makes a big difference in health outcomes.

Do you know where your compounded medications are made?

Let us show you our state-of-the-art compounding labs

Town & Country Compounding makes customized medicine to the **highest standards.**

2 Titration kits

We provide titration kits to help the patient find the dose that works best for them. Doctors we work with recommend starting with a very low dose and slowly titrating up towards 4.5mg. It may take 4-6 weeks to find a patient's perfect dose.

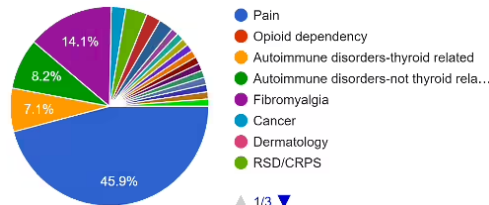

3 LDN patient follow-up program

We have developed a patient follow-up program in which patients are contacted via text, email, or phone three weeks after dispensing to check how they are doing with their therapy. We ask questions that gauge patient response to optimize their therapy success. When following up with patients after starting therapy, if an issue or concern is identified, one of our trained pharmacists will work with the patient and provider to resolve it.

4 Patient survey & results

Ask us about some of the results of recorded data from surveys completed by real Low Dose Naltrexone (LDN) patients about their experiences.

Example: Survey on reasons patients take LDN

5 LDN collaboration & education

Our LDN expert pharmacists speak at various medical events. If you would you like to collaborate with Town & Country Compounding regarding LDN, we are available for zoom or local in-person presentations.

- Webinars
- Office education
- Speaking events
- Team up for patient education

Not all pharmacies uphold the same standards.
