We Compound Quality

We conduct testing on our GS formulations with an outside lab.

Not all pharmacies uphold the same standards

Our accreditations place us in the top 1% of compounding pharmacies

Urgency Matters

We understand the urgency of starting treatment for FIP, which is why we strive to have your medication ready the same day or within 24 hours.

Relapse Guarantee

Town & Country Compounding Pharmacy firmly believes in our products. If your cat relapses after completing an initial 84 day course of treatment, meds will be provided at 50% off.

***This offer is only valid with a veterinary prescription and proof of relapse (provided by your veterinarian).*

GS-441524 Rx Order Form

It's easy for licensed practitioners to prescribe GS-441524 capsules for felines with our pharmacy.

FIP Treatment Protocol

A FIP (Feline Infectious Peritonitis) Treatment Protocol refers to the structured plan used to treat cats diagnosed with FIP

Town & Country Compounding provides high-quality GS-441524 injectables and oral capsules to support FIP treatment in cats.

Precision-compounded for consistent potency

Third-party tested for purity and strength

Reliable dosing to support successful outcomes
